

# SESSION BLACK DARK LAGER

## SHORT, DARK AND DRINKABLE

**Most beers this dark are so heavy-duty, you could eat them with a fork. Session Black, on the other hand, lets you have your dark beer and drink it, too. A subtle pairing of caramel and chocolate malt flavors helps make Session Black short, dark and totally drinkable. At long last, a dark beer that doesn't drink like a meal. ABV 5.4% IBU 18**
